Our Lady of Hope Graduate Class

Congratulations to Jacob Marciniak and Joseph Schieder, the 2009 graduating class of Our Lady of Hope Homeschool at St. Luke's! The boys completed their studies and will be attending St. Joseph's Collegiate Institute and St. Francis High School, respectively. Their year was capped with an exciting trip to Cedar Point. Prayers and Best Wishes to both boys!

Univera Gives a "Shocking" Gift!

Mr. Peter Kates, Regional Vice President of Communications for Univera Healthcare recently presented St. Luke's Mission of Mercy with a state-of-the-art Philips HeartStart Defibrillator to better serve the health needs of our community. The AED is designed to assist first responders from the community in providing emergency care to those in cardiac arrest. The missionaries, teachers, and kitchen staff will be trained in CPR and the use of the AED in August, thanks to the Fidelis Care NY Community Grant Fund and Our Lady of Good Remedy Health Services. The AED will be located in the dining hall of the Mission.

Mr. Kates was accompanied by Mr. Bob Miller, Public Access Defibrillation Specialist of SOS Technologies, who will work side-by-side with Dave Marciniak, Director of OLG Health Services to keep the AED working well and updated with necessary software changes. Thank you to Univera for this "shocking" gift!
